Abstract

The law is a method of reducing chaos by control of the people by power-intoxicated politicians who enrich themselves and selected others in a process of bullying prevarications using legalisms which do not provide truth or justice. The “law” is a clever man-made, intoxicating dogma brainwashing people since birth to accept “law” as a necessity for orderly civilization. So conditioned, the people have become enslaved and entombed by the law taken over by power-mad, enriching corruption, metastasizing throughout the politicians, lawyers, government employees, and press editorial fascists who create and impose the “law.” Twenty-seven statements about the “law” are offered for every society. Thirty “amendments” are offered to stop corruption for every society. The “law” must be replaced by un-corruptible high tech computer gaming artificial intelligence run by the other Learned Professions of Medicine and Divinity restoring Transcendence to the Law.

1. The “law”, where-ever/any-where, is needed in proportion to the people’s lack of transcendence (truth, oneness, good and beauty--“The Ten Commandments” basically) and/or the politicians’ power-mad need to control (“enslave” in reality) the people because of lack of transcendence in the controlling politicians themselves.
2. The “law” promotes the “common good” for the people mainly by reducing chaos and anarchy for the people--Mostly it just enriches those in the law and their colluders.
3. The “law” promotes the “common good” personally for the politicians, government employees, their colluding dictators of the press and media, and any favored sycophants.
4. The law’s only “constituency” is its mega bureaucracy i.e., those receiving money from them as employees who will vote for them--For this reason, government employees should not be allowed to vote--their “income” is “bribery” to vote only for their bosses.
5. The “law” has the “best” public relations in the world by its respect the law law-school bar-imposed hyperbolic flimflams of “equality before the law”, “innocent until guilty”, et cetera, which are almost never facts, but instead are pure grandiose law school indoctrination clichés. The prohibition and negating of cogent negative comments about the law as “contempt” is actually absolute undeniable proof of the contemptible oxymoronic nature of the law.
6. The “law’s” plea bargains are money-making perjury scams for prosecutors, investigators, defense attorneys and judges who collude off-record: to avoid the “prove guilty” work of jury trials; to escape the expense and work of “equal protection” (which is a myth); to ignore mitigation efforts; to maintain conviction-rate and reputation by best-pay/easiest effort routes possible; to routinely condition and fabricate “guilty” by genuflections and show-biz prayers to the judge; and to slither away from hard work, prohibitively expensive Constitution required jury trials. Basically, “equal protection”, “innocent until proven guilty”, and the Bill of Rights (free speech, grand jury, due process, jury trial, cruel & unusual punishments) are jokes made possible by “plea bargains” and mini-god judges being slickly seduced by legal-bully celebrity-truth pretending lawyers maliciously violating the plea bargain by putting words into the mouths of judges.
7. The “law”, when using plea bargains, must replace “normal jury” by an “alleged first counts jury” because the numbers of first counts intimidate (without “equal protection” and with “innocent until investigated”) to force acceptance of the plea bargain without the normal Constitution required jury. With “first count juror equivalent”, any first count unproven, dismissed or withdrawn will require “not guilty” outcome, as would one juror’s “not guilty” in a standard jury trial. The reduction of the intimidating routine high numbers of alleged “first counts” give

- the accused more “equal protection” and need for more “proof of guilt”. Until this is done, the law is a fucking contemptible joke.
8. The “law” had this statement by a Great Course on “Origins of Evil” many years ago: “The law does not believe in truth or justice but in legalisms”. Thus so, the “law” operates by inflated self-righteousness made possible by pompous “fun-house-mirror” politician inspired words scabbled into evidence, fabrications and verdicts, all condensed into “legalisms”.
 9. The “law” basically is the use of legalisms which are methods of evidence creation designed and imposed by politicians to implement the law, enslave the people and enrich themselves, their employees and colleagues. An example is a legalism which required “physical exams” on even old injuries and “pain specialist consultations” every 3 months on patients given opioids--This legalism irrationally stated that without such in the records, the activities were “drug trafficking” and “corrupt activity” (proving that legalisms are methods of false evidence creation and of subtle benefit to others, “pain specialists” in this instance and more work for all the lawyers able to be employed to process this contemptible legalism scam).
 10. The “law” is an opiate for those “high” in power and the people who are “drugged” into acceptance of the law. Thus, the law is an emotional “bully sport” contest of winner has the most legalisms. It is a fancy Scrabble Game with the mini-god judge spelling out “guilty” or “innocent” using the pile of offered legalisms for alphabet letters. And you better accept this because there are other legalisms which will destroy you if you do not.
 11. The “law” is a veiled totalitarianism, managing occasionally to be accidentally virtuous, but overall, it seeks neither truth nor justice but inflated self-righteousness by “fun-house-mirror” legalisms scabbled into verdicts.
 12. The “law” has a main social outcome of the prevention of anarchy and a pretense of “common good”, all because not enough citizens follow the Ten Commandments (The “need” for law is in direct proportion to the failure of the country’s citizens to be good, overt or covert, Roman Catholics. If the people are “no good”, nothing will work well and there will never be enough laws--de Tocqueville wrote amazed at the absence of laws in early America because the people were good and sought conflict resolution by virtuous judgements from religious leaders).
 13. The “law” has been taken over by the gay cult genital maniacs, dirty old men, dirty minded schoolboys & girls never grown up, harem cunt-fest feminists (all in charge of the press & media), destroying childhood, motherhood, fatherhood, marriage, fidelity, the chaste gender and biological gender. Most “normal” people with diseases (epilepsy, cancer, hypertension, obesity, et cetera including gender dysphorics) do not seduce, parade, recruit, politicize or hate/attack/offend those who call “a disease” a “disease.” Gay cultists (et al supra) hate anyone and anything (like “husband” or “wife”) who/which remind that gays are diseased and abnormal when acting out their “genital maniac” feelings. Thereby the genital maniacs create a pollution-culture of masturbation totally unnatural and out of synchrony with living creatures on the planet--and people not in concert with nature are basically no good and need law after law for a semblance of civilization. This is why genital maniacs have been condemned for thousands of years, until the U.S. Supreme Kooks when irrational.
 14. The “law” has courtrooms, which are cleverly designed arrogant, pseudo-religious show-business stagecraft of bench-and-bar to intimidate the people into believing the court is the valid true power for all decision-making, control and conflict resolution. “Adore the Law” is the most important psychological dogma for law schools to impose onto themselves and fooled citizens. Needed is when the judges enter by established religious ritual, all should kneel like National Football League Kaepernick did with the National Anthem--only in the courtroom. Such “kneeling” is justified pseudo-respect mockery for the pseudo-mini-god judge celebrating her pseudo-religious proceedings of the law.
 15. The “law” in the U.S. (and everywhere else), is an unconstitutional “established religion” with judges as minigods and politicians as clergy celebrating a “bullying contest” between incorrigible loud liar lawyers sanctimoniously reveling in better-than-thou dictatorships.
 16. The “law” is pure pollution when it is openly against evolution and natural selection for the planet by promoting contraception and abortion; by not prohibiting unnatural sex (Natural sex is between opposite sexed adult members of the same species consistent with reproduction); by not requiring assumption of responsibility when pregnancies occur; and by not respecting life.
 17. The “law” deserves neither respect nor admiration but fear and contempt pretending respect and admiration for one’s own safety. The best way to understand government law and those in it is the metaphor of “scribes and Pharisees” in the New Testament and “slavery” by subtle bureaucratic chains, administrative whips and press/media suggestibility diseases all of which destroy “freedoms” to live virtuously. The only differences for “the law” between countries are the people enriched, the people destroyed and how done. It will be this way until identified corrective measures are taken.
 18. The “law” offers Machiavellian and fascist destruction for those who disagree, criticize, or offer Orwellian “face crimes” (disapproving looks). This must stop.
 19. The “law” has destroyed the three “Learned Professions” (Medicine, Law and Divinity) which built Western Civilization giving all the benefits we all have. Each profession limited itself to its areas of expertise, did not impose itself on the two other professions; and rejected and ignored two other professions’ offerings unless consistent with the discipline’s dignity, unity, integrity, identity and spirituality.
 20. The “law” destroyed Medicine as a Learned Profession by taking over medical records which should have remained totally private as in the Hippocratic Oath (the now “dead” Oath executed by law exceeding its area of expertise). The law has imposed rules for records thereby controlling medical care, killing the “Art and Science of Medicine,” and enslaving physicians. For most organs, there are a trillion synapses, billions of cells, a hundred chemicals known, another hundred chemicals yet to discover and a thousand interconnecting pathways--only an irrational

totalitarian would claim to have laws to govern such. Medical textbooks cannot do it and instead, offer constantly-changing “best” procedures with chapters on adverse reactions, lack of effectiveness and alternate treatments--that a law could be passed to tell doctors what to do is insane. The law should promote Health Savings Accounts giving the people the dollars, so they can save or decide how to directly purchase health care from doctors. The law must ensure that law providers are healthy and my “Healthy Government” article must become law. In addition, the law must be made available as a Medicare-like system (Legicare) with all legal, government and bureaucratic services defined as “service procedures” with identification numbers which are paid only as allowed for each procedure (There will never be “equal protection” until that happens for all executive, congressional, judicial, legal, bureaucratic, administrative and political payments and law incomes). Physicians have become the largest number of legal targets today with attorneys offering to lead patients to find something “to make them pay”.

21. The “law” destroyed Divinity as a Learned Profession by confusing freedom with immorality, and the Founders would have hung the genital and violent maniacs of today’s press & media. Divinity is also destroyed by prohibition of free exercise by Church/state separatists who refuse to acknowledge that the Founders argued vigorously as to whose pastor would say the opening prayer for the first meeting of Congress in 1776, firmly believed that the common good was the Ten Commandments and Judeo-Christian religious fervor, made their first Congressional purchase of 20,000 Bibles, and asked President Washington to start a National Day of Prayer the first day after the First Amendment was passed. Many, if not most, in today’s law would have been hung by the Founders.
22. The “law” imposes several “Inquisitions” today (attached). Actually, we really need the old Spanish Inquisition....they wanted the truth and they were going to get it...then they gave mercy and forgiveness more than not, if one admitted doing wrong, made corrections and promised to do whatever no more (Review of Mad For God attached).
23. The “law” must be largely replaced by artificial intelligence--COMPUTER GAMING/ARTIFICIAL INTELLIGENCE--Computers are taking over jobs everywhere. Computer gaming is creating fun, transcendence and methods of fighting battles and winning wars. The law must replace itself with computer gaming/artificial intelligence. If unwilling to do so, the Medical Profession (especially psychiatry) and/or the Roman Catholic Church, must do so and cure the world of the law cancer and its metastatic pretense of settling conflicts and differences. Such “Hippocratic Gaming” and artificial intelligence would include legalisms, physical variables, transcendentals, community universals, Hippocratic humanbeingness, the Roman Catholic Mass Mantra, the Ten Commandments, and virtue. Computer programming of human conflict resolution will provide more truth and justice, more humanbeingness and more life, sacrifice, virtue, love, humanity, peace, freedom and natural death without fear, than the law has ever done. Got a problem? Do not use the law...Create and use Hippocratic Computer Gaming Artificial Intelligence as essential for truth and justice. Do not ignore the law--just fear it and use a better more truthful and just way, avoiding, as much as you can, the money-mad “I will make them pay” advertising lawyers, arrogant self-deluded judges, and the temporarily-self-righteous sequence of truth-less justice-less bully-contest appeal courts.
24. The “law” is totally self-discredited by Appeal Courts. If the law gave truth and justice, it would not need “appeal courts”! Not one appeal court, but many going up to the Supreme Court? Actually, each appeal court level is proof that truth and justice were not expected from the prior court. Not once, but many times over and over. Each court circus makes its money for its legalism juggling clowns, and then passes the case on. A cynic would say this is just “good business” providing plenty of work for generations of law school graduates (50,000 are added yearly to the current 1,200,000 lawyers in the U.S.) who will need more laws enslaving all, from what to drink to what to think; necessary because the people are no good and have no more virtue than their corrupt political leaders. Nevertheless, Appeal Courts are proof that the law is a sham and that the creators of the law knew it. The final conclusion is that the only way for truth and justice is for the law to go to computer gaming/artificial intelligence.
25. The “law” is nothing but a capitalist money-making “necessary evil” reducing chaos as an unconstitutional “established religion” with judges as mini-gods and lawyers as saints and clergy. Robed ritualistic charades, sensational bullying, and pseudo-religious condescension’s fill courtrooms. There is no art (except “bullying”) or science in law (as required in the Medical Profession)...The law is a necessary evil...or, at best, a pseudo-sport seeking suggestibility-victory, making money for all involved above all, and promoting the “common good” for politicians, judges, lawyers, and their buddies and bureaucrats. The law is the second largest employer in the United States. The law does not care about truth or justice except for public relations sloganeering myths such as “equal protection before the law,” “innocent until proven guilty,” “the truth, the whole truth and nothing but the truth,” and other meaningless, how-great-we-are contemptibility-prohibiting dogmatisms enabling money for all.
26. The “law” over criminalizes like crazy. Look up the Innocence Project and National Registry of Exonerations (the myth of “Innocent until proven guilty”): Over 300 men have been released because of DNA clearance after accumulating over 6000 years (at least 20 years apiece) of unjust imprisonment thru 2014. Not released were another 11 innocent men already executed. In 2015, another 149 were DNA freed for false imprisonment averaging 14 years in jail, but another 14 innocent had already been executed! Eighty centuries of accumulated unjust imprisonment and twenty five murdered by the law. In total, cleared by DNA, four hundred and forty nine innocent men unjustly imprisoned for at least fourteen years each of their young lives, and twenty five were executed innocents (Respect?). Considering those innocent without DNA, from 1989 to 2017, there were another 2,292 exonerations and more than 20,265 years of life lost in prison by innocents (Respect?). The criminalization of priests falsely accused of sex assault by bullying “Nifong” prosecutors and investigators is another absolute proof of the absence of truth or justice in the legal system and its anti-Catholic bigotry when compared to how other organizations are treated. Innocent

people do not have a chance--THE LAW IS A DISGRACE and CONTEMPTIBLE when there are no consequences for those responsible for what happened to innocent people (The estates of the judges and attorneys involved should pay and statue of limitations for malpractice deemed overruled). "Equal protection" and "innocent until proven guilty" are pure bullshit. Machiavelli noted how those in power will destroy those who criticize; he also mentioned how such power corruption enriches. The famous quotes of Machiavelli and power should be incorporated in the constitution and articles of origin of every government and recited by government assemblies every January. Over criminalization is an epidemic as much as the opioid crises and it is caused by the law which must be computer gaming/artificial intelligence so there is more truth and justice--which is what the law says it should really be.

27. The "law" should be doing assisted suicides, euthanasia and abortions (ASEA). "Lethal force" should only be done by judges, attorneys and politicians. ASEA (and capital punishments) should be done only by those who legalized them. ASEA are LEGAL procedures and not "medical" procedures except only insofar as there may be a rare complication requiring medical response, which can then be requested. As LEGAL, not "medical," procedures, every Justice Center or equivalent should have its ASEA section where all these procedures are to be done by those in the legal system. That is, judges, prosecutors, politicians and attorneys in that Justice Center's sphere of involvement would be required to rotate performing the procedures (on a full average week load basis?) so that income will be reasonably distributed. Clearly, ASEA procedures have been confirmed as safe, simple, easily done with low probability of complications especially for assisted suicide and euthanasia. Abortion is perhaps the most complicated, but anyone who knows how to have sex, could easily master the machines for early abortions consistent with good legal practice. Easily accessible (almost "drive through") clean, comfortable, warm, quiet, relaxing rooms with good social service like attorneys offering support and assistance while the judges et al demonstrate the iconic acme of their legal powers--lethal force, i.e., murder). All procedures are to be routine courses in all law schools--(only 4 days would likely be required--one day for AS & E; 2 days for Abortion), with one day of observing practice at the Justice Center. Naturally, those with conscientious objection would be excused, but teachers at local law schools would be required to perform ASEA to help implement "justice" at the Justice Center as well as get their share of the income, i.e., Legal ethics require equal opportunity--the Supreme Court justices in Washington, D.C. should not be deprived of these opportunities and be required to do what they have ordered.
2. All in government and law (and family members) are not exempt from any laws including libel.
3. All in government and law (and family members if employed) are to be paid only by a base salary determined by procedure and service codes which will be the only source of paying for personal benefits received when in office. All procedure and service codes will be equally required for plaintiff and defendant in all litigation in search for "the truth, the whole truth and nothing but the truth" as sworn by all parties (including judges and lawyers); and in all government administrative procedures (including Internal Revenue Service) such that "equality before the law" requires government provided services "on behalf" of citizens to equal those actions "against" citizens.
4. All in government and law (and family members) will be prohibited from any investment in prison or prison support industries. All incarcerations will be overturned whenever this has happened in the past.
5. All in government and law (and family members) will study, review and sign-off annually on Suggestibility Diseases such as Solomon Asch Groupthink, Stanley Milgrim Suggestibility, Stanford Penitentiary Experiment, Nifong Prevention Programs, Male Antivirtue Sexism, Harem Feminism Sexist Selfishness, Abortionismo and Gay Cultism.
6. All laws, whenever mentioned in any legal proceeding, will be completely read into the record each time with all parties in attendance so that the defendant is assured that all parties know the law.
7. "Plea bargains" will be prohibited, because they deprive trial by jury which is constitutionally guaranteed. Plea bargains are capitalism benefits for those in the law: more money for less work by all; no jury trial as constitutionally required; "free trade" of charges for reduced cost for both prosecution and defense. For equality before the law, the state must equally fund jury trials for both plaintiffs and defendants. In order to stop the plea bargain (actually is usually "plea perjury") manipulation, prosecutors must prove ALL initial charges and counts, for "guilt" to be found (Each initial "count" is to be a "juror" equivalent declaring "innocent" unless all counts PROVEN guilty). "Plea bargains" make "innocent until PROVEN guilty" to be a joke.
8. All in government and law and their family members' retirement, health care, travel without specific government mission, job security & protection and any other benefits are determined by the same laws and rules which govern the common citizen and will be paid for as common citizens pay from personal finances. (Children of Congress members do not have to pay back their college student loans. Staffers of Congress family members are also exempt from having to pay back student loans. Members of Congress can retire at full pay after only one term. Members of Congress have exempted themselves from many of the laws they have passed, under which ordinary citizens must live. For example, they are exempt from any fear of prosecution for sexual harassment. And as the latest example, they have exempted themselves from Healthcare Reform, in all of its aspects. We must not tolerate an elite class of such people, elected as public servants and then putting themselves above the law.--comments from Edward R. Nigro infra).

Thirty amendments needed

True Justice requires all political systems to have an ANTI-CORRUPTION AMENDMENT for all political leaders of any nature (elected, appointed and appropriated):

1. All citizens will be covered for all legal matters by a third party system as is health care. There are more laws than illnesses and "Legicare" (legal care comparable to medical care by Medicare) must be provided for all. Insurance and third parties must take over the practice, record keeping and payments of attorneys.

9. New taxes are needed: a politician/law/bureaucracy tax. Politicians, those in the law and bureaucracy are “bought and sold” every day and they should be taxed. All in government and law and their family members will be taxed at a 90% rate for any and all increases beyond salary based assets accrued while in office and for five years after leaving government employment.
10. All in government and law and all with over 5 million dollars in assets, must have served or serve 4 years in the military and have their children and grandchildren serve in the military for 3 years without special consideration (to preserve themselves all that they stole--If they have not “defended” it by military service, to hell with them. To die for these corrupt politicians and their sycophant families is insane).
11. All in government and law and family members’ estates will be taxed at 90% at death for all assets over 3 million dollars accumulated during government employment and for 5 years thereafter. This is to pay off the national debt they created.
12. All laws will be repealed which give any government employee or person in law any benefit not given to the common citizen.
13. No remuneration of any kind is to be received for enhancing reputation, business generation, client and associate management, civic activities, bar association activities, pro bono activities, speeches and appointments to corporation boards or equivalents. There will be no origination fees, referral fees, fiat retainers, or name value payments or any other payments unless appropriate to the legal work actually performed.
14. All members of law firms can bill only for work personally performed and documented, time and service, by open records.
15. Immediate members of politicians’ families are prohibited from practicing law.
16. Appearances of impropriety and conflicts of interest are to be avoided, disclosed immediately, undone and prevented.
17. All legal and financial records of all in government and the law (and employed family members) are open to the public...This enables “truth to reign.”
18. The right to privacy and prohibition of unreasonable searches require that all medical records for all citizens are absolutely confidential and confined to the doctor-patient relationship.
19. All in government and law (and family members) are prohibited from any financial remuneration from or investment interest in any press and/or media business.
20. All in government and First Amendment editors at all levels must wear cameras and recorders for all government related activities with permanent retrieval forever, including all finding of evidence used by prosecutors. The First Amendment is for the people and the press must publish any and all writings from the people which are consistent with the Constitution’s “Nature and Nature’s God” consistent with the Founders.
21. No politician can be re-elected to the same office more than once.
22. The First Amendment does not allow lies and is to preserve the integrity and decency of the people consistent with the Ten Commandments believed and followed by the Founders. All judges, lawyers, editors and journalists guilty of lying will face mandatory three months imprisonment for each offense. (It is ridiculous in courts that only those who take an oath “to tell the truth” are the only ones subject to laws prohibiting false statements).
23. All in government (except military, postal, police, fire and garbage services) should be called “authoritarians” rather than “workers” to more accurately identify and remind them as related to the Nazi, Soviet and Chinese fascist authoritarianisms (governments). The bureaucracy makes citizens to be administrative slaves to rules, meetings and phone calls enabling the employment of voters who will vote only for the politician employing them. The bureaucracy must be completely computerized without human corruption potential.
24. All in government, before formal prosecution for non-violent allegations, must make a six month minimum “mercy and forgiveness” attempt to “correct” those responsible by informing of the laws being violated and assisting in re-establishing compliance with the law rather than punitive “conviction” or “entrapment” efforts. “Conviction rates” are to be prohibited because those are the only thing prosecutors really care about.
25. Malpractice penalties will be retroactively imposed on the estates of all involved in unjust imprisonment--judges, prosecutors, investigators and plea-bargain accepting defense attorneys cannot get away with the conflict-of-interest profit-making over criminalization epidemic they have created. The penalties will start at \$1million dollars per year (or fraction thereof) of unjust incarceration malpractice from the estates of all responsible and the law bureaucracy. (Over 300 men have been released because of DNA clearance after accumulating over 6000 years of unjust imprisonment thru 2014. Not released were another 11 men already executed. Another 149 were freed in 2015 for false imprisonment averaging 14 years in jail. Another 14 had already been executed! Eighty centuries of accumulated unjust imprisonment and twenty five murdered by the law. Considering those innocent without DNA, from 1989 to 2017, there were another 2,292 exonerations and more than 20,265 years of life lost in prison by innocents and nothing happens to those responsible. And we are supposed to “respect the law”?)
26. Dismissing cogent criticisms of the law by labeling them “contempt of the law” is totally irrational and proof that the law actually is “contemptible”--argumentum auctoritate or argumentum ad legis deserve contempt. The “contempt” dismissal is actual proof of the validity of the contempt. “Contempt of the law” dismissals must be prohibited.
27. Without a “right to natural death”, the “right to life” and “created equal” becomes meaningless. Thus “lethal force” must a legal procedure used whenever an “unnatural death” is imposed as by euthanasia, assisted suicide, abortion, or capital punishment. That is, judges, prosecutors, politicians and attorneys in that Justice Center’s sphere of involvement would be required to rotate performing the procedures (on a full average week load basis?) so that income will be reasonably distributed. Clearly, the procedures have been confirmed as safe, simple, easily done with

low probability of complications. Easily accessible (almost “drive through”) clean, comfortable, warm, quiet, relaxing rooms at the Justice Center with good social-service-like attorneys offering support and assistance while the judges et al demonstrate the acme of their legal powers--lethal force. All procedures are to be routine courses in all law schools--(only 4 days would likely be required--one day for euthanasia, assisted suicide and capital punishment; 2 days for abortion), with one day of observing practice at the Justice Center. Naturally, those with conscientious objection would be excused, but teachers at local law schools would be required to perform all unnatural death procedures to help implement justice at the Justice Center as well as get their share of the income, i.e., Legal ethics require equal obligation and opportunity--the Supreme Court justices in Washington, D.C. should do their share (Stanley Milgram would be pleased--the Eichmann's ordering the deaths would be the ones doing the killings).

28. All restrooms, showers, and toilets must be open to all genders at all times at all Justice Centers, all government facilities, and all press & media facilities everywhere. Traditional privacy is unequal and thus should be prohibited on all government property and for all in government employment.

29. To be Americans, all Muslims must certify:

CITIZENSHIP CERTIFICATION FOR MUSLIMS:

I reject completely and forever that all nations who have not acknowledged the authority of the Quran are sinners; and that it is not my right and not my duty to make war upon non-Muslims wherever they are found or to make slaves of all I can take as Prisoners, and that every Musselman (Muslim) who should be slain in Battle was sure to go to Paradise. I pledge allegiance to America as it is; I reject its surrender to Islam; and I will fight to defend this country's independence, culture, leadership and laws. If I break this promise, I will voluntarily leave, within six months, to go live in an Islamic country in the Middle East.

30. Add from Edward R. Nigro, 2018: OUR PRESENT SITUATION!

Children of Congress members do not have to pay back their college student loans. Staffers of Congress family members are also exempt from having to pay back student loans. Members of Congress can retire at full pay after only one term. Members of Congress have exempted themselves from many of the laws they have passed, under which ordinary citizens must live. For example, they are exempt from any fear of prosecution for sexual harassment. And as the latest example, they have exempted themselves from Healthcare Reform, in all of its aspects. We must not tolerate an elite class of such people, elected as public servants and then putting themselves above the law. I truly don't care if they are Democrat, Republican, Independent, or whatever. The self-serving must stop. Governors of 35 states have filed suit against the Federal Government for imposing unlawful burdens upon their states. It only takes 38 (of the 50) States to convene a Constitutional Convention. IF??? Each person that receives this will forward it on to 20 people, in three days most people in The United States of America will have the message. Proposed 28th Amendment to the United States Constitution: “Congress shall make no law that applies to the citizens of the United States that does not apply equally to the Senators and/or Representatives; and Congress shall make no law that applies to the Senators and/or Representatives that does not apply equally to the Citizens of the United States ...”
