Opinion Article

Why the Catholic Church...

Samuel A Nigro*

Department of Psychiatrist, Case Western Reserve University School of Medicine, USA

The major characteristics of the church that has provided benefits to billions of people for over 2000 years & millions are alive because the Church has been against abortion (If it had not been for the Church, about one-fourth of the people you have met would be dead. (Read at least the short ones, but all are facts). The more good Catholics, the more civilized and productive the country.

1. Because of the Church, billions have had love, joy, serenity, tranquility, guidance, comfort, respect, education, health, less chaos, less evil, more mercy, more forgiveness, more logic and how to think and obtain Eternity---there IS more than this earthly craziness. There is comforting projection into more and more based on the Body of Christ--all with the startling facts of a Virgin Birth, a God-Man preaching love, His Crucifixion and His Resurrection--God found that nothing else could convince free humans to believe and understand--What is more startling, unbelievable, inspiring, explicating existence than the Story of Jesus by the Catholic Church? "Jesus" is a 2 X 4 upside the head, saying "Love and there is more!" So does the universe properly understood as by the Church.
2. The first prohibition of slavery by Pope St. Gregory I in sixth century.
3. First organized medical and health care--first hospital beginning in 4th Century with Basil of Caesarea in what is Turkey today and expanded with support agencies wherever needed and able to do so.
4. Started the first colleges & universities and in West with University of Cordoba in eighth century and in 1088 with University of Bologna.
5. Created contemporary science by Parisian Bishop Nicole Oresme and philosopher friend Jean Buriden, in the Fourteenth Century.
6. "Illegal (not-separated)" Church benefits to the state continue in America (and in every country where millions are alive because of Church teachings and efforts against abortion promotions): In 2010, in the U.S., there were 2.6 million children in 6980 catholic schools saving public schools approximately \$18 billion dollars. This does not include 230 colleges and universities. The Catholic Church also provided 625 hospitals - one of five hospital beds in the US are in the Catholic hospital system serving over 35 million admitted patients annually and over 98 million patients in out-patient care. The cost to operated Catholic hospitals is about \$100 billion dollars yearly of which 10%+ is unreimbursed donation by the Church. Catholic Social Service Agencies provide 2.3 billion dollars per year for down-and-outers in our society. This all is provided by some 20,000 churches supported by about 68 million Catholics. Continuing, the military support given by the Catholic schools and universities, results in about 520,000 Catholic families in the military, 204,000 Catholics in reserves and 66,000 Catholics in government service overseas and 29,000 Catholics are patients in the Veterans Administration. To project backwards, it is at least 100 years for the Catholic Church's contribution to American society such that the state has benefited. If reimbursed, monies should be paid for these past services and for each year in the future. For each student each year, \$1000 (which is about 1/4th actual cost) should be paid to the Church including students from every Catholic school that has closed (For 2010, the "each student" public service reparation would be \$2.6 billion dollars-generalizing for 100 years, the Church is owed \$2.6 trillion dollars for primary and secondary schools alone). The reparation for the 230 colleges and universities should be \$10,000 for each student for each completed year since the founding of each institution. For each patient ever served in or at Catholic hospitals, \$2500 should be paid to the Church. In fact, these numbers are a dramatic under payment. Everyone should figure out just what the state did not have to do because of the social benefits from the Church. All benefits are done in the name of Jesus to make the world a better place--It is the same in every other country.
7. Supported and funded Christopher Columbus' discovery of Americas (Others "found" the Americas too, but they "lost" it. Columbus did not "lose" his discovery and it opened to the world).
8. Helped to civilize uneducated violent savages everywhere by teaching humanbeingness Divinized by Jesus as Savior and offering Redemption. No matter what, about 10 to 20% of every

- subculture have not had overt or covert Catholic childhoods giving them the CHUPs (Catholic Human Ultimate Purposes of life, sacrifice, virtue, love, humanity, peace, freedom and natural death without fear). Those without HUPs will be at the uncivil “savage” end of humanity, and will need extraordinary help to learn “humanbeingness” (“Make That Interaction Count”).
9. Created United States of America by papal supported French Catholics defeating the British at Yorktown thereby winning the American Revolutionary War for America. I add that the Catholic role for America winning the Revolutionary War was crucial (There even were likely more priests with the French forces than Protestant pastors with the Americans at Yorktown): the French Fleet under Comte de Grasse controlling the sea; the 5,500 French soldiers under general Comte de Rochambeau with artillery (the Americans had no artillery); and British General Lord Cornwallis trying to surrender to French General Marquis de Lafayette instead of General Washington...no wonder they all went to celebrate a Catholic Mass afterwards as the first celebratory event at the end of the Revolutionary War with George Washington specifically, thanking at the Mass, “France...a nation in which the Roman Catholic religion is professed.”
 10. Thomas Jefferson, with Catholic nations helping, freed the oceans of Islamic pirates in the early 1800s by starting the U.S. Navy and Marines who went to Tripoli to end Muslim pirating. The Church prevented the destruction of Europe by Muslims at the battle of Lepanto.
 11. The Catholic “Fighting Irish” should be especially recognized as enabling the defeat of the South at Gettysburg so the North finally won the Civil War and stopped one hundred years of slavery with the freeing 4 million Negro slaves whose descendents now are 45 million mostly successful free Negro men and women in the US. This is in contrast to Islam wherein 14 million African slaves over 12 centuries were worked to death without descendents.
 12. Gives optimum family life instructions and advice, based on remembering Jesus, the Trinity, Mary and the Saints as models to pray to, imitate and follow. The Rosary is offered reflecting on five Mysteries each of Glory, Joy, Sorrow and Luminosity.
 13. Promotes an unadulterated childhood--the Right to Childhood--the first and only defender of the chaste gender-- sexual privacy and naivety for developmental integrity of children/adolescents with traditionally married men and women committed to virginity before marriage and faithfulness thereafter based on love.
 14. Promotes Life by pointing out that abortion is against evolution, natural selection and natural law because human personhood begins at conception and should persist until natural death, because you do not come along with the next pregnancy, which means all your life is totally personal from conception on. Couples should practice natural sex and assume responsibility for evolution and natural selection when there is an unplanned pregnancy. Abortion is the refusing to take responsibility for a mistake in reproduction planning.
 15. Identifying unnatural sex as pollution by: “Natural sex is between mature, opposite sexed members of the same species consistent with reproduction”--pheromone controlled sex in the animal kingdom without love--and marriage controlled sex for humans with love. (Recognized was the biological need for occasional “wet dream like” release as proved by female ferrets dying if unable to mate. Occasional “wet dream like” release is natural, encouraged and good). The Church forever cautioned that unnatural sex makes people crazy, as confirmed by Sigmund Freud and the press & media’s pornography, immodesty and violence which, crazily, replaced and destroyed American Founders’ virtue and Ten Commandment culture, which the Founders hoped the First Amendment would maintain. Rejected are the pollution promotions of dirty old men, dirty-minded school boys and girls who never grow up, harem-feminists, genital maniacs and violence celebrators. (Bishops, priests, religious are not saints and some have always been made “crazy” by cultural pollutions. When popular, cigarettes and alcohol contaminated many clergy. Recently, in 1960s, unnatural sex became massive cultural pollution and it metastasized to the clergy. Overall, the Church has identified and corrected itself better than any other organizations whose unnatural sex “abuse” problems were worse but not publicized as much as those in the Church, consistent with chronic anti-Catholicism of press & media. The Church has done more than any others to reduce unnatural sex, including pedophilia. It always has, but the unnatural sex epidemics promoted by journalism’s liberal culture of masturbation was not recognized until many were made “crazy” by it--and still are, as new assaulting/raping politicians are announced almost weekly).
 16. The Doctrine of the Blessed Virgin Mary--began the first “equal and more” respect for women totally against the supremacy of men due to the fact that almost everything in early human history was based on “muscle” value for survival which put females in total inferiority unless given extraordinary support. Catholic marriage doctrine first taught unity to oneness i.e., marriage is the inseparable merger of the man and the woman into one 2-headed creature of the home, where the woman will be subserviently supportive and the man will be sacrificing for her as Christ sacrificed for the Church. St. Cecilia of the second century began more equality and respect for women as the Church began conferring sainthood on many extraordinary loving-Jesus women.
 17. Created first intellectual equality by confirming the first woman “Ph.D” in Padua, Italy, Elena Cornaro, in 1678, beginning the current intellectual based reduction of muscle value for respect, opportunity and survival.
 18. Established the Transcendental and Trinitarian distinction between genders as “male”: matter, truth and good; and as “female”: identity, oneness and beauty, all related to creation, the universe and love (Addendum I).
 19. Operates by Sacramentalizing the Transcendentals: the Catholic Trivium: being, matter, identity; Quadrivium: truth, oneness, good and beauty; and Univium: sports.
- Ens* (Latin)-**being**--what has existence.
- Res* (Latin)-**matter**--the corporeal body, i.e. the confluence of the being with matter completing it. It is the most visible dimension for those in the material world. In nature, nature rules, neurochemistry and all, on how the being manifests itself in nature. Bodies are needed

to relate. They are our physical being by which humans interact with all.

Aliquid (Latin)-**identity**--the form of the being, i.e. the confluence of the being with its essence--for humans, not ethnicity, not color, nor anything but humanbeingness--the total embracing of humanity for us--in a word “catholic”--all for and with all.

Verum (Latin)---**truth**--the truth of the being, i.e. the confluence of the being with reality and not fantasy--or for us humans, the confluence with real life and not television shows, movies, magazines, newspapers or figments of imagination from oneself or others.

Unum (Latin)-**oneness**--the oneness of the being, i.e. the confluence of the being with itself and all desirability related to it: its integrated, whole entirety.

Bonum (Latin)-**good**--the good of the being, i.e. the confluence of the being with proper function in nature, or for mental beings, with proper choice in Natural Law (or Rational Environmentalism).

Bellezza (Italian...preferred by the author to the Latin “pulchritude” for multicultural reasons)-**beauty**--the beauty of the being, i.e. its confluence with ascendancy or the “bringing out the best of itself and all around it.”

20. Operates by Sacramentalizing the Humanness Variables: The Community Universals (of Donald DeMarco, in part):

DIGNITY: Man should always be respected as an inviolable end and never used as a means.

UNITY: Man should be honored as a totum and whole entity; and none of his parts should be treated in isolation of that whole entity.

INTEGRITY: Man’s moral good should be upheld and his morality should never be divorced from his nature.

IDENTITY: Man has identity both as a member of the human race and as a unique individual and person; these identities should be valued and allowed to develop and no attempt made to deform or radically alter them.

SPIRITUALITY: Man’s spiritual qualities should be affirmed, and no attempt should be made to reduce man to his material components only or to limit man to what is merely natural.

LIFE: Man’s agency conflates and the self energy should transcendently embrace all that is offered.

LIBERTY: Man’s contingency confronts and thought filled choices are to be made for desirables.

PURSUIT OF HAPPINESS: Strategy consecrates by peace and mercy.

21. Operates by Sacramentalizing the eight essential interactional variables of Hippocratic Humanbeingness (from “Make That Interaction Count”) and “pan humanity”, the latter being the judgement of others and self by content of character and not by color, race, sex, height, weight, or subculture):

1. Living things are precious.
2. Selective ignoring.
3. Subdued spontaneity...non-self excluded.

4. Affect assistance.
5. Detached warmth and gentleness.
6. Non-reactive listening.
7. Conscious-of-consciousness capable creature (C²CC) centered candidness.
8. Peace and mercy.
22. Teaches the Gifts of the Holy Ghost: wisdom, understanding, counsel, fortitude, knowledge, piety, and fear of the Lord, as well as to avoid the seven deadly sins of pride, covetousness, lust, anger, gluttony, envy, sloth and G. K. Chesterton’s list of “everything that is abominable--pedantry, parvenu vanity, obscurantism, irreverence, lack of humor, tyranny, anarchy, contempt for the poor, tenth-rate culture, pride, vain-glory and blindness and hardness of the heart...and blaspheming tradition and equality.”
23. The Church gives salvation by Human Ultimate Purposes (HUPs) as Mass Mantra for all meditation to each person: life, sacrifice, virtue, love, humanity, peace, freedom and natural death without fear.
24. The Church always offers VIRTUES: faith, hope, charity, prudence, justice, temperance, fortitude and holiness.
25. First organization with democratic election of leader (popes).
26. The only organization against “genetics” when it was being promoted for race “purification” enabling today’s survival of minorities; and the only scientific criticizer of Darwinism as oxymoronic scientists refuses to do (Addendum II).
27. Saviour of 860,000 Jews (one-fourth of those who survived the Nazi Holocaust).
28. First to identify, over thousands of years ago, the “multiverses” of today’s basic physics as our Universe, Heaven, Purgatory and Hell.
29. Contributor of Trinitarian civility of life, liberty and pursuit of happiness and property (capitalism more than socialism) to the Founders of America and everywhere else.
30. Converted Mohammed from his paganism into Catholicism when in Mecca the First Time (after which Mohammed was kidnapped by imams who returned him to power-mad paganism) making Islam to be a Catholic “heresy”.
31. Promoting music & sport as touches of supernatural spirits unknown to subhuman animals--listen to Beethoven and Christmas Choral singing or celebrate a sport game.
32. Providing amazing tranquility on a daily basis to millions daily by confirming there is more for humanity than the earth as proved by the Virgin Birth, Jesus’ Love & Sacrifice, and the Resurrection.
33. Exuding and identifying Divine Spirit from and in the universe.
34. Giving joy by belief in and following of a Loving God, because there is Spirit derived from the God created universe--the universe is the entropy for synthesizing love unless you screw it up and become entropy yourself (Addendum I).

35. Gives all people dignity, unity, integrity, identity, and spirituality--and full Spiritualized Humanbeingness and pan humanity.
36. The Church as Body of Christ gives salvation by promoting Human Ultimate Purposes (HUDs) to each person: life, sacrifice, virtue, love, humanity, peace, freedom, and natural death without fear.
37. The positive "Body of Christ" transcendent impact (of being, matter, identity, truth, oneness, good and beauty), on billions of people over thousands of years cannot be denied.
38. The Church always offered the Corporal Works of Mercy (Feed the hungry. Give drink to the thirsty. Clothe the naked. Shelter the homeless. Visit the sick. Rehabilitate criminals. Bury the dead).
39. The Church has always offered the Spiritual Works of Mercy (Instruct the ignorant. Counsel the doubtful. Admonish sinners. Bear wrongs patiently. Forgive all injuries. Comfort the afflicted. Pray for the living and the dead).
40. The Church has not survived because it did all the lies created by jealous bigots. Even though criticisms are usually uncharitable and magnified, the Church rebuts all criticisms, but the complainers have proven so bigoted deaf that the Church rarely bothers with the same old stale unjust attacks any more. (Bearing False Witness: Debunking Centuries of Anti-Catholic History by Rodney Stark is an excellent recommendation for those who perpetrate hate speech and thought crimes against the Church. Because of this book, United Nations condemnation and legal action should be undertaken against all anti-Catholic hate speech. A must read is Forty Anti-Catholic Lies--a myth-busting apologist sets the record straight by Gerard Verchuuren, Ph.D). And sometimes, the rebuttals fall flat, because the leaders are human and imperfect. And those who criticize have closed minds and do not want the truth.
41. The prejudice against the Church has made it the most martyred and oppressed culture in history: A minimum of 41 million Catholics have been murdered in the past two millenia and anti-Catholic prejudice is still on-going and rationalized outrageously (Robert Royal's book, Catholic Martyrs of the 20th Century --A Comprehensive World History--New York: Crossroads, 2000--and my article review of it in Medcrave: Journal of Psychology and Clinical Psychiatry. 2016; 5: 00273.). The fanatical anti-Catholic hatred and bigotry goes on and on, from the first known oppression by Bar Cochba in the first century who killed thousands of fellow Jews who were following Jesus, to current jealous pedants. In general, those who bad-mouth the Church are selfish self-inflated wanna-be pseudo leaders jealous of the real Church which they must try to degrade so they can "lead" you their way. No group has been more persecuted and martyred than the Catholic Church and it still goes on!
42. Roman Catholic Humanbeingness and Sins: (Figure 1).
43. The Church seems to be the only organization committed to "Nature and Nature's God" (the Theogeocalculus) which gives it life and synchrony with the universe, so much so, that it is the only group which professes linkage with the pre-BigBang Eternity of a Loving Transcendent God waiting for our return enabled by Jesus if freely following the Body of Christ overtly or covertly (Addendum I).
44. Regardless, the Church somehow stays afloat with a big rudder and bumbling crew. As my Italianate father would always say, "The Church must be divine to survive even 50 years with some of the lousy leadership it has had." Its image does not help by being filled with sinners trying to be healed by mercy and forgiveness. Its Divinity is clear because Jesus created it: Matthew 16:18 properly translated from Aramaic (to Simon Peter, "You are Kephas and on the kephas I will build my church") or from Greek, "You are Petros (male word needed for Peter) and on this petras ("rock" is grammatically feminine in Greek), I will build my church." There is no reasonable questioning the creation of the Church by Jesus, nor its identification with the Body of Christ from about 22 other verses as offering the most direct way to Salvation. Anyway, Peter even began as a wimpy jerk as first Pope and "leader". The Church has to be Divine to have survived even its first leader.
45. Words are identified as angels consistent with St. Thomas Aquinas' Hierarchy of Angels: Seraphim, Cherubim, Thrones, Dominions, Virtues, Powers, Principalities, Archangels, Angels, Demons (from my book Happy Ending).
46. The Church has to be Divine to have survived thousands of years with some of the leadership it has had. It has been helped over the millenia by innumerable fervent organizations, too many to list, but I will mention mine: the Knights of Columbus.

Closure

It has not been perfect, but to attack and degrade the Church and the religion of a Loving God is outrageous--No other organization has come close to doing what the Church has done for millenia. All this is why I call it "the Soul of the Earth" and wrote a book called Soul of the Earth which told how to live the Sacraments in all things. In general, a culture is lousy to live in unless there is a good percentage of practicing Catholics. Just go to a Mass and infuse yourself in the ancient words of the priest, the songs which reflect the times of their writing (An example is a recent Mass ending with a song of lyrics from the 4th century translated by Martin Luther); wish peace and shake hands with neighbors and strangers in the attendant congregation; and find yourself in another "rock concert" world of subdued but genuine elation of a touch of Divine Spirit--just a feeble joyful glimpse of the Statimuum (Eternity) to come by reliving the Gospels and the fifteen billion years of the Universe since the Big Bang compressed into ancient messages of the Bible and Tradition (If you have not felt that with the Church, you are being kept "out of the zone" by addiction to "entertainment" or "celebrities" instead of deep-breathing Spiritual Reality). That is the real (true, one, good, and beautiful) Church being Jesus as humanity and the world became and are still becoming Divinized by the Church as Jesus. The ancient incredibly inspiring "unbelievable" Jesus story is the only way humans can competently and easily understand the world, life, love, and all other aspects of our existence resulting in Transcendental Joy. The Body of Christ leads to anthropologic understanding of nature and the world resulting in the same Divine Everything we see and do, as by St. Hildegard (on the Holy Spirit and the Big Bang, the pre-Big Bang, the Statimuum, and Eternal Life):

I am that supreme and fiery force that sends forth all the sparks of life. Death has no part of me, yet do I allot it, wherefore I am girt about with wisdom as with wings. I am that living and fiery essence of the divine substance that flows in the beauty of the fields. I shine in the water, I burn in the sun and the moon and the stars. Mine is that mysterious force of the invisible wind; I sustain the breath of all living. I breathe in the verdure, and in the flowers and when the waters flow like living things, it is I. I found those columns that support the whole earth...I am the force that lies hid in the winds, from me they take their source and as a man may move because he breathes, so doth a fire burn but by my blast. All these live because I am in them and are of their life. I am wisdom. Mine is the blast of the thundered word by which all things were made. I permeate all things that they may not die even if they seem to die. I am life...Eternal Life. (The Statimuum: the Immediacy of All Transcendence Ever--this is also LOVE...from molecules attracted to each other to humans doing the same...The Unrestrained Act of Thinking--God! or "URAT" only obtained by Love--It is going to be a "shock" of total Joy!).

Everything we do can be the Heartbeat of Christ just as it is when we take Communion and hear "the Body of Christ" and "the Blood of Christ" over and over like heartbeats.

Abstract

Everyone has bought into current evolution theories by dogmatic acceptance without usual scientific criticism. No alternative is offered but the scientific criticisms should be respectfully accepted and answered instead of unscientifically ignored. (A 20th criticism is offered January 2019: The facial differences of human creatures are overwhelmingly Personal and totally against the "natural selection" sameness of evolved creatures. If evolution ends in sameness of creatures seeking to promote their selves, facial differences would disappear and we all would look alike and be indistinguishable. Human facial and body differences are an amazing, bewildering contradiction of evolution...It is like God wants creatures of individual love and personhood to be uniquely personal and independent.... the face is as personal as one's soul!).

This article provides 20 scientific criticisms of evolution: (1) the negative impact; (2) similarity infers but does not prove developmental relationship; (3) creatures are stable; (4) the time available for mutational changes is suspect; (5) the compensation requirements for negative and neutral mutational changes overwhelm "natural selection;" (6) pheromones are biological objections to evolution; (7) creatures have a difference tolerance incompatible with major changes; (8) self-reorganization is never seen; (9) personal experience with positive chemical changes remain with the individual and are not passed on; (10) complex protein creation is extremely improbable de novo; (11) the Principle of Uncertainty cannot be overcome; (12) Godel's Theorems of Undecidability and Incompleteness mitigate against it; (13) the species based "struggle for life" is patently untrue; (14) there is a "neurotheology center" in the human brain and Stephen Hawking's eight basic physics principles can be identified as metaphorically spiritual; (15) ideas are not accounted for; (16) scientists' psychological needs account for most of Darwin's acceptability and promotion; (17) a culture of masturbation is outside of planetary nature and the related norms of abortion and contraception are totally against evolution and natural selection; (18) pseudo-scientific gurus present arguments of faith

and ignore newly evolved metaphors of science which are consistent with old metaphors of religion (The data used in this article have no doubt changed but never enough to alter conclusions offered); (19) the required complexity for "life" on the planet as we observe it scientifically render the probability for duplication to be impossible.

Believe

The deathworks are made discouragingly clear by the anus of Mapplethorpe (picture included) as the incontrovertible acme of the secularism /atheism culture foisted on us by almost all information technology from the New York Times to Hollywood. I cannot believe we are living in this miasma in which The Fall has to be bottoming out. So to help Easter arrive, I must offer the following:

Technology in all its forms has been removing the planetary, human and divine components of existence by denying that the transcendentals are significant. Matter, identity, truth, oneness, good and beauty are replaced by an artificial virtual reality excitement emanating from the dehumanizing denaturizing electrono-celluloid-inkstool miasma. Thereby, reality is replaced and polluted by non-being. That is, since God and sacred are forbidden, juvenile immaturity never ceases. Therefore, in the practical order, "anything goes" by the ultimate inane pseudo freeing nihilistic massively selfish pollution paradigm of "sperm everywhere" (Squirt/moan and slime/squeal truly represent the permanently adolescent intellectual-emotional acme of all secularism/atheism and its culture of disgust, nipples, squirt and death!). The answer is to denature, derealize and dehumanize the electrono-celluloid-inkstool miasma as not only non- but anti-transcendental and therefore the press and media are more unworthy of belief or imitating than that which they deny existence and try to destroy. De-be the stool miasma by overt and covert mocking and the imposing of the same arrogant decreating created by technologically based secularism/atheism imposed by today's unchilding powermad liberals straight out of Orwell's 1984. Unfortunately, when dealing with filth, disgust and death, one must get dirty. But "Tu quoque!" is the cry. On all produced for the public should be the label "The press and media are harmful to your health." The denaturing must be denatured. The dehumanizing must be dehumanized. The meaninglessness must be made meaningless. The deniers must be denied. The nihilists must be nihilized. The excitement must be made laughable by gross biologolizing i.e., global f--king is much more polluting than global warming and non-marital (non-sacramental) sex is really just a form of toileting. Until genital misuse is mocked, sexuality for humans will be unplanetary pollution and never normal as in the rest of the animal kingdom naturally following nature. The liars for whom all truth is relative must be lied about ("relativized"). The frauds of science (all of them) must be shown to be the pretending hypocrites they all are. In short, the electrono-celluloid-inkstool miasma must never be considered credible unless transcendental. So drown the press and media in its own fake liberal openness to all as it censors and represses God, the Church and the transcendental theory of the Universe. Overthrow the dictatorship of the press and media and all the unreality people. Doing such is charitable, decent and transcendental especially for impressionable, gullible and suggestible youth. With the mention of every celebrity ("look at me" fakers from permanent makeup to "don't have'em" bowel movements) and every newspaper electronocommunications gaggle, youth must giggle. I volunteer. Never write or say "The New York Times" Instead, it is

the “New Yuk Slime.” Do the same for all the press and media and all celebrities of secularism/atheism. Use your imagination and call it “truth” as secularists/atheists do. Puns will help. It will get worse. Make it so. Always demean and degrade secularism/atheism and the stool miasma press and media. The children you prevent them from kidnapping may be your own.

The Deathworks are here. Needed are The Catholic as Historian and my pamphlet ...and Satan turned into an Angel of Light...

Everyone must stop being so suggestible and gullible-it is death. And without the transcendentals, there is no love, no culture worthy of the name, no virtue, and no nobleness-just secularism/atheism and a dirty-minded schoolboy culture of meaningless excitement and degrading disgust.

It is time to really understand “evolution”: However you act in this life is what will be done to you in the Afterlife magnified by at least 1000. And by The Deathworks, your every sin will be massively received “payback” in return, permanently if mortal, Purgatorily if venial. If in Hell, it will be a never ending infernal recycling self-created self-annihilation by your own sins turned against yourself. If in Purgatory, it will be a restoring reliving of one’s reparable sins being done to oneself. And, if in Heaven, it will be a true, one, good and beautiful ecstasy proportional to your own lived truth, oneness, goodness and beauty. This is real evolution.
